## CATHEDRAL STONE-LAYING CEREMONY TO-DAY

### BRITAIN CLOSELY WATCHES CHINESE EVENTS FOLLOWING KILLING OF SEVERAL NAVY MEN

Present Chaotic Conditions in Oriental Country Prevent Immediate Diplomatic Action, But London Government Will Take Measures on First Favorable Opportunity

London, Sept. 9.—While the British Government is unlikely to do anything for the moment regarding the Kiawo incident, in which several British naval officers and men were killed or wounded at Wanhsein, on the Yangtze River, by Chinese troops attached to Marshal Wu Pei-Fu's forces, it is certain there will be some sort of diplomatic action as soon as conditions warrant.

In view of the chaotic situation in China, no diplomatic note has been sent to Peking. In fact, the unofficial attitude is that such action in the present state of affairs would be rather a compliment to the Peking regime, which is supposed to be governing the country.

However, if Wu Pei-Fu retires sufficiently to escape the Canton Reds who are harassing him and can again give his attention to such "irresponsible acts of brigandage" as the Kiawo affair, he will hear from Britain in the strongest terms.

### SHIPPING PROTECTED

Officials here are satisfied with the situation at Canton, where it is stated British naval forces will remain to protect the shipping which for the first time since the Hong-kong boycott was started is now being carried on without molestation from the Canton strike pickets.

A wireless dispatch from Hankow says a further expedition by the British to Wanhsein, on the Yangtze River, is under consideration. "It is contemplated for the purpose of securing the release of British steamers held by the Chinese general, Yang Sen."

### OPPORTUNITY AWAITED

The newspapers here, although galled by such incidents as have taken place at Wanhsein and Canton, refrain from demanding reprisals. Some of them frankly admit nothing can be done at the present, but they are waiting patiently for a chance to act effectively.

The London Times scornfully comments on China's inconspicuous aspiration to a permanent seat in the Council of the League of Nations, "in view of the powerlessness of her nominal central government."

WARSHIPS SENT  
The reported departure of the British cruiser Hawkins from Weihaiwei for Hankow is attracting attention here. The Hawkins is the flagship of Vice-Admiral Alexander Sinclair, commander of the British China Station.

It is unofficially reported other warships are accompanying the Hawkins southward.

Shanghai, Sept. 9.—There is a report in shipping circles here that United States warships were involved in the Yangtze River engagement last Monday and suffered some casualties. However, neither the United States consulate nor the United States naval office here has any verification of the report.

### CHINESE RESOLUTIONS

Canton, Sept. 9.—A Canton press bureau communique reported to-day that four Chambers of Commerce of Canton had denounced the forcible landing of British forces at Canton last Saturday.

The incident referred to was the taking over by British naval forces of British wharves long used as strikers' headquarters. The British threatened with arrest and punishment as pirates all armed strikers interfering with British shipping and property.

### CHINESE URGE ACTION

Canton, Sept. 9.—The joint conference of the Unions of Peasants, Workers, Merchants and Students, meeting here to-day, adopted a resolution calling for organization of a national committee to employ economic weapons of defence against what was described as the "shameless" and "unjust" British imperialist.

### WAR DECLARATION

Peking, Sept. 9.—Marshal Sun Chuan-fang, ruler of the five eastern provinces of China, has declared war on the Canton Government, whose troops have been invading his territory. It is announced that his troops are to be required to place his 50,000 men in the field.

### FIGHT IN SYRIA

Beirut, Syria, Sept. 9.—The French claim to have routed a strong force of tribesmen near Maarabe, ten kilometers north of Damascus. The tribesmen are said to have lost heavily.

### JOINS KING IN BIG DAMAGE SUIT; SENATOR MURPHY

For years before he was summoned to the Senate in September, 1925, Hon. Charles Murphy was Postmaster-General in the King Cabinet.

### LIBERAL LEADERS' SUIT IS \$250,000

Mackenzie King, Senator C. Murphy and J. C. Elliott Move Against Toronto Telegram

Ottawa, Sept. 9.—Senator Charles Murphy and Hon. John C. Elliott, former Minister of Labor, are named as two other plaintiffs in the \$250,000 action for damages for alleged libel which has been taken on behalf of Right Hon. Mackenzie King against the trustees of the estate of the late John Ross Robertson, publisher of The Toronto Evening Telegram.

The writ, which has been filed in the office of F. A. Magee, the local master, at the courthouse, shows that in addition to the amount of damages asked for by the three plaintiffs, they also seek to secure an injunction and an interim injunction.

### CLAIM STATED

The plaintiffs' claim, as set forth by the writ, is as follows: "The plaintiffs' claim is for the sum of \$250,000 damages for libel and the plaintiffs' claim is also for an injunction to restrain the defendants from further publication of the statement complained of or similar statements, and further for an interim injunction restraining such publication until final decision of this action."

### FIVE DEFENDANTS

The defendants named are John R. Robertson, J. E. Cameron, Irving B. Robertson, Douglas S. Robertson and Alfred T. Chadwick, trustees of the estate of the late John Ross Robertson.

The statements in The Telegram on which complaint is made were in regard to the present Federal political campaign.

### CANADA SUFFERS

Midland, Ont., Sept. 9.—Unless the type of vicious attack now being made on men in public life ceased, it would become impossible for a man of honor or of refinement to enter public life and Canada itself would suffer, said Rt. Hon. Mackenzie King, Liberal leader, addressing Federal electors of East Simcoe here yesterday afternoon.

"After the customs investigation," he said, "you have the unanimous verdict of a jury of Parliament before you and until we have some other verdict the people of this country are justified in condemning any man who condemns another man in public life on hearsay evidence."

### SEEKING DIVERSIONS

"The Tory Party is starting one life after another in order to take up the time of Liberals refuting them and keep the public from discussion of tax reductions and similar matters," said Mr. King.

"Seeing some of the advertisements that are being paid for, the Liberal Party has entered action against a Toronto paper for daring to publish these statements."

"I am going to see, if men persist in this kind of thing, that there are a few prosecutions before this campaign is finished."

### VOLCANO IN JAPAN ACTIVE; TWO DEATHS

Tokio, Sept. 9.—Mount Tokachi, on the island of Hokkaido, in northern Japan, broke into eruption to-day. Two lives were lost. Clouds of sulphurous smoke rolled down the mountainside. Villagers, panic-stricken, fled for safety.

### ALL TAX CUTS VOTED AGAINST BY BOTH TORIES

Hon. S. F. Tolmie and C. H. Dickie Fought Beneficial Measures, Farris Charges

O'Halloran Urges Canadian Navy Would Recreate Industry at Esquimalt

All the tax reductions and other legislation especially beneficial to the average man were opposed and voted against in the House of Commons by Hon. S. F. Tolmie and C. H. Dickie, Conservative candidates in Victoria and Nanaimo, J. W. de J. Farris, K.C., charged at the Rex Theatre, Esquimalt, last night. Mr. Farris urged that voters on election day should not forget the attitude of these two men on tax reductions.

Mr. Farris spoke at the meeting in support of C. H. O'Halloran, Liberal candidate in Nanaimo. After speaking at the Victoria Chamber of Commerce the night before, Mr. Farris had gone to Vancouver and was representing a client before the court there until 1 o'clock this afternoon. So anxious was he not to fail the Esquimalt meeting that he took the ferry in the afternoon from Vancouver to Nanaimo and motored down the island, arriving at the meeting half an hour after it had started.

Besides Mr. Farris, Mrs. Mary Ellen Smith, M.P.P., and Mr. O'Halloran were the speakers.

Mr. Farris listed as follows these measures of tax reduction which he would average, which Mr. Dickie voted against last session:

1. Mr. Dickie voted against reduction in the postage rate from three to two cents.
2. Mr. Dickie voted against the big reductions in the income tax made by Finance Minister Farris.
3. Mr. Dickie voted against the reduction in the tariff on automobiles, which reduction has been given by Finance Minister Farris.

Canada and not so much the luxury of the rich as before, while at the same time it has given up the automobile manufacturing industry in Canada, a boom under which more men are employed, new capital invested and production increased thirty per cent.

Mr. O'Halloran reaffirmed his stand for a Canadian navy built as far as possible in Canada, which, he said, would recreate Esquimalt and make it a great and important centre again.

### LIVELY SCENE AT LABOR CONGRESS

Memories of Recent British General Strike Cause Turmoil at Bournemouth

Bournemouth, Eng., Sept. 9.—The British Trades Union Council had a riotous quarrel of an hour here to-day when J. Bromley, of the Associated Society of Locomotive Men and Firemen was asked to second an emergency resolution pledging support to the striking coal miners of Great Britain.

A Lancashire miner asked if the general council had gone out of its way deliberately to insult the miners by putting up this railway union official to pose as their friend.

Pandemonium then broke out. Bromley tried to speak, but the delegates howled and shouted him down. Unable to restore order, the chairman adjourned the conference until later in the afternoon.

The incident was interpreted as an indication that the miners hold the railwaymen responsible for the collapse of the recent general strike.

### OBSTRUCTION ENDED

Upon the resumption of the session the president appealed to the delegates to maintain the dignity and tradition of the organization. The miners' spokesman announced that delegates had reconsidered the position and would not cause further obstruction, whereupon Mr. Bromley made his speech.

### BISHOP SEES CATHEDRAL AS OUTPOST

Victoria Answers Back to Liverpool Structure at Other End of 49th Parallel

Dr. Winnington-Ingram Arrives on His World Tour; Has System of Rules

The Right Rev. Arthur Foley Winnington-Ingram, who for the past twenty-five years as Bishop of London, has come to be known as one of the most remarkable men in a remarkable age, sat on a shaded bench in the gardens of the Bishop's Close at noon to-day. He motioned with his hand to the foundations of the new Christ Church Cathedral which could be seen through the shrubbery and where members of committees were busy arranging final details for the laying of the foundation stone this afternoon.

"I look upon this as a very important event—the building of this cathedral in Victoria," he said. "At one end, so to speak of the 49th parallel, I left the great new Liverpool cathedral, overlooking in its mass and location, and after journeying over an ocean and continent I find here at this land's end of the same parallel another cathedral going up to answer as it were to Liverpool at the other end."

### SYMBOLS OF BELIEF

The Bishop of London, accompanied by Bishop Schofield of Victoria, arrived from Vancouver on the night boat. Despite the fact that he had addressed four great meetings in Vancouver yesterday, including the Canadian Club, he was up early this morning and attended the 8 o'clock service at Christ Church Cathedral.

After that, garbed in his brilliant purple cassock, he spent the morning with Bishop Schofield and other clergy in going over Memorial Hall, the new cathedral site, and settling final details for the ceremony this afternoon.

When a reporter arrived at the Bishop's Close, he was greeted by Mrs. Schofield. She called to the Bishop of London, who was sitting by his open bedroom window, where he had just started to open his morning's mail. She asked him whether he would talk to The Times. His Lordship replied that he would be down into the garden. He put his letters aside and did.

Having completed his trip across Canada, with his arrival in Victoria this morning, the Bishop said that he found this a country of enormous possibilities, of untold wealth which has not yet been developed.

### DAUGHERTY-MILLER TRIAL IN NEW YORK

New York, Sept. 9.—A German copper magnate who is said to have received \$5,000,000 of United States Treasury bonds, illegally delivered to him at a champagne dinner here in 1921, will resume testimony in Federal court here to-morrow.

Trial of former Army-General Harry M. Daugherty and former Allied Property Custodian Thomas W. Miller was interrupted to-day by Judge Mackay's declaration of a holiday in recognition of the Jewish New Year.

### AUTOISTS WHO SAW BIG FIRE TO PAY FINES

Vancouver, Sept. 9.—One hundred and ninety-four motorists who parked their cars on the Connaught Bridge and the Georgia Street viaduct last night when they went to view the spectacular fire in the False Creek industrial district which attracted thousands of spectators will receive summonses for infractions of the traffic by-laws, Inspector George Hood of the police traffic department said to-day.

### MEN FROM THE U.S. WORK ON PRAIRIES

1,200 Have Answered Call For Harvesters and More Are Following Them

Vancouver, Sept. 9.—(Canadian Press)—The Vancouver Daily Province to-day published the following special dispatch from Winnipeg: "A total of 1,200 men from north-western parts of the United States have responded to Canada's appeal for prairie harvest help since the ports of entry along the boundary were thrown open on September 1. The number of men applying for admission is on the increase and it is expected to run up to more than that figure by the end of the week."

### FORTY LOST LIVES WHEN SHIP SANK

Disaster Overtook Coasting Steamer in Gulf of Riga; Rescue Impossible

Riga, Latvia, Sept. 9.—The coasting steamer Neidade sank last night in the Gulf of Riga with the loss of all aboard. Ten sailors and thirty passengers comprised the list.

The cause of the disaster is thought to have been the explosion of a floating mine. The ship floundered in a heavy storm that prevented any rescue. People along the shore saw her signals of distress, but heavy seas prevented them from launching any boats for a rescue.

### \$250,000 FIRE LOSS IN VANCOUVER

Blaze Last Night Caused \$150,000 Damage; \$100,000 Fire Yesterday

Vancouver, Sept. 9.—Sweeping through the plants of the Defence Shingle Company, the Empire Box Company and the Stanley Lumber Company, and damaging False Creek industries in the centre of this city, a fire which originated from an unknown cause in a drydock caused losses estimated at \$150,000 last night.

The heat for the blaze was so intense that it was felt many blocks away. Sparks were carried for a considerable distance and resulted in two further outbreaks. A Canadian Pacific Railway box car standing on a siding close to the mill was totally destroyed with its lumber contents, while a portion of the Cambie Street bridge also became ignited, but the fire was quickly subdued.

### STUBBORN FIGHT

The blaze last night gave the firemen a fight of two and one-half hours. It started about 8.15 o'clock. Crowds were attracted to the scene of the conflagration. Great tongues of flame darted skyward and lighted a great section of the city with a lurid glow.

From 150 to 200 men are affected by the fire.

### SECOND FIRE

It was the second outbreak yesterday. In the morning fire did approximately \$100,000 damage to Powell Street premises, including the North-West Sack Company.

### WORKED QUIETLY

So quiet and methodical was their work that others in the sleeping car were unaware of the robbery until the train neared Matton, seventy miles farther south. Then William Davidson, San Francisco, freed himself; Joseph Riskin, New York, and Morris Minsky, also of San Francisco, and the alarm was given.

The bandits entered the drawing-room of the three jewelry men twenty miles out of Chicago, and before the train arrived had bound the trio, rifled their stock cases and bolted the compartment door. They did not make a thorough search of all the baggage and missed \$50,000 in uncut diamonds in Riskin's satchel.

Davidson told officers everything, indicated the bandits knew of the jewelry stocks, which he said were fully insured against theft, and had tried their victims.

The men captured gave their names as George Brown and O. A. Burke of Chicago and Harry Leonard of Butte, Montana.

### UNIDENTIFIED BODY FOUND ON SOOKE'S SHORE

Constable C. C. Jacklin of the Provincial Police rushed to Sooke this morning to investigate circumstances surrounding the finding of an unidentified body near the high water mark at a point on the Sooke waterfront about eighteen miles from Victoria by road. He was followed later this morning by Inspector T. W. S. Parsons, B.C. Police, and Inspector F. Cruickshank, C.I.D., who will carry on investigations for headquarters.

The body was near the water, which indicates that it may have been washed ashore. It is possible that he may be some fisherman whose boat has been lost in some sudden squall.

### Football Results In Great Britain

London, Sept. 9 (Canadian Press Cable)—Football games played to-day resulted as follows:  
ENGLISH LEAGUE—THIRD DIVISION  
Southern Section  
Newport County 6, Bristol City 6.  
Rugby League  
Harrow 20, Warrington 6.  
Hull-Bradford, postponed.

### ROBBER MADE HAUL AND LOST LIBERTY

Three Who Took \$500,000 in Jewelry From Illinois Train Captured

Chicago, Ills., Sept. 9.—Three Chicago bondits who robbed three diamond merchants of half a million dollars' worth of diamond and jewelry on an Illinois Central train near here last night, were captured to-day by posse in a cornfield near Buckley, Illinois, ninety miles south of Chicago.

The three robbers bound and gagged the diamond merchants in their car drawing-room, and after the robbery left the train at Champlain and escaped in a hired automobile.

They were driven to adjacent Urbana, where they engaged a driver and another car, waited while he persuaded a frier to go along for company, and started on their flight toward Chicago, 122 miles away.

### NOTED PRELATES IN CITY FOR CEREMONY MARKING MEMORABLE OCCASION

Thousands of Victorians and Outside Visitors Gather to Witness Impressive Service and Procession as Bishop of London Lays Foundation Stone for Magnificent Gothic Edifice to Be Erected in Victoria

Marking a red-letter day in the history of the Church of England on Vancouver Island, the ceremonies surrounding the laying of the foundation-stone of the new Christ Church Cathedral by the Bishop of London to-day have a special significance, not only to adherents of the Church in the Diocese of British Columbia, but throughout the Pacific Northwest, as evidence of religious progress. The new Cathedral will be the largest of its kind in North America.

The ceremonies have drawn to Victoria a number of distinguished visitors, notable among them the Right Rev. F. A. Winnington-Ingram, D.D., L.L.D., K.C.V.O., Bishop of London, Most Rev. A. U. de Pencier, Metropolitan of British Columbia; Rt. Rev. W. R. Adams, D.D., Bishop of Cariboo; Rt. Rev. J. C. Roper, D.D., Bishop of Ottawa; Rt. Rev. E. M. Cross, D.D., Bishop of Spokane; Rt. Rev. F. A. Huston, D.D., Bishop of Olympia; Rt. Rev. W. P. Remington, Bishop of Eastern Oregon; Rt. Rev. W. T. Sumner, D.D., Bishop of Oregon; Rt. Rev. W. H. Moreland, Bishop of California; Rt. Rev. I. O. Stringer, Bishop of the Yukon.

In addition clergy and laymen from all parishes and missions of the Diocese are in the city for the historic occasion, and this afternoon's boat from Vancouver brought a large party of clergy and laymen from the mainland diocese. Hundreds of parishioners from the various parishes on Vancouver Island and the ad of the ecclesiastical provinces of the Pacific Northwest are assembled in Victoria for a religious ceremony.

The background of the fine old trees of Burrard Avenue and the grounds of Bishop's Close, the scarlet and purple of the ecclesiastical vestments, the gleam of the Bishops' crosses, and the hues of the anners representing the churches and missions, and the long procession of surplised clergy will long be remembered by the thousands witnessing the picturesque and impressive ceremony.

A particularly sad feature of her death is that as one of the most active workers of Christ Church Cathedral, Mrs. Hiscocks had given devoted service to the cause of the new cathedral, and she had been anticipating with much pleasure attendance at the stone-laying ceremony with this afternoon. Only as recently as yesterday she was occupied in making one of the banners which were carried in the ecclesiastical procession at to-day's ceremony.

Mrs. Hiscocks was the widow of William A. Hiscocks, for many years a member of the well-known firm of druggists, who predeceased her several years ago. She was born in Norfolk, England, sixty-nine years ago, and came to the Pacific Northwest with Mr. and Mrs. Partridge to Victoria about 1881, residing here ever since.

Another phase of her life which was noted for her good works and kindly benevolence, Mrs. Hiscocks was one of the most valued workers in Christ Church Cathedral, of which she had been a member ever since it was built. She was a charter member, and honorary vice-president of the Diocesan Board of the Columbia W.A., a member of the Parochial W.A. and of the Parish Guild, and a life member of the Dominion Board of the W.A., and never spared herself in any work which she undertook.

# STEVENS'S OIL STOCK LETTERS GET INTO CAMPAIGN IN VANCOUVER

Chicago, Ill., November 4, 1922

Canadian U.S. Oil & Refining Corporation,  
1007 Standard Trust & Savings Bank Bldg.,  
Chicago, Illinois

Gentlemen:

At your invitation as a shareholder in the Company, I came East for the express purpose of checking up the statements of the company and its operations. I wish to thank you for the courtesy extended to me by the officers of the Company and members of your staff in laying before me without reservation all the records and information in the possession of the Company. My investigation has convinced me that the Company is in possession of exceedingly valuable holdings in Oklahoma, Texas and Louisiana, (although I have not personally visited the Louisiana field). Not only is the Company possessed of these valuable oil leases, but the field operations as carried out by Mr. D. S. Head, your Supervisor in this department, demonstrate that a very careful and wise policy has been pursued. Indeed, my personal investigation of your holdings in Texas and Oklahoma has convinced me that the Company has virtually passed out of the promotion stage and is now a well established industrial concern, which with proper management and a little more capital ought to be in the immediate future become a factor in the oil producing and refining world.

I think the company is to be congratulated in having in charge of its field operations a man of the standing of Mr. D. S. Head, and further in connection with its prospective entry into the refining branch of business, in having associated with it Mr. George Wakefield. I take this opportunity of assuring you of my entire satisfaction with the policy and methods pursued by your Company and of the excellent foundation that you have already well laid for a permanent and successful industrial corporation.

Yours very truly,

H. H. Stevens

Member of Dominion Parliament for the City of Vancouver

Facsimile of one of the letters sent out by H. H. Stevens, which was broadcast by oil stock salesmen to promote sale of stock in an oil company.

Vancouver, Sept. 9.—Hon. H. H. Stevens, Conservative candidate in Vancouver and Premier Meighen's Minister of Customs, has suffered a nasty check in his campaign here as a result of sensational developments at Ottawa concerning Mr. Stevens's operations in aiding the promotion and sale of stock in the Canadian U.S. Oil and Refining Corporation of Chicago.

Ottawa dispatches say that evidence has been produced to show that Mr. Stevens, as a director of that company, went to Chicago, took with him to Chicago quantities of Government letterheads, and used that stationery in writing letters in the interests of Chicago oil firms.

These letters on Dominion House of Commons stationery were later lithographed and broadcast by oil stock salesmen all over the United States and Canada.

According to information here the Canadian U.S. Oil and Refining Corporation was incorporated in March, 1921, and started paying dividends almost immediately thereafter until November 30, 1922, when the company was reorganized.

It is estimated that more than \$600,000 was subscribed by Eastern Canadian and American people and that entire sum will be lost.

It is known that the Canadian U.S. Oil and Refining Corporation includes many Canadian shareholders from all parts of Canada and from all walks of life.

### ADVANCES TO COMPANY

"There had always been great difficulty in getting attendance at shareholders' meetings, and a gathering of shareholders was called for March, 1925, to consider a proposal to sell the corporation's interests to the Lewis Oil Corporation. There was not a sufficient number of shareholders present, and the meeting was adjourned until April 22, 1925, at which meeting a representative group of shareholders being present—the directors were instructed to make the best possible deal with the Lewis Oil Corporation. Prior to this, however, Mr. Lumsden, president of the Canadian U.S. Oil and Refining Corporation, had advanced out of his own pocket, in cash and credits, a sum reported to be approximately \$125,000, in an effort to save the corporation. I had also advanced a few thousand dollars for a similar reason.

**BUSINESS TRANSFERRED**  
"After the meeting above mentioned, Mr. Lumsden went to California, and there closed a deal with the Lewis Oil Company of Oklahoma—a subsidiary company of the Lewis Oil Corporation—whereby the shares and assets of the Canadian U.S. Oil Corporation were turned over to the Lewis Oil Company, in return for which the Lewis Oil Company took care of the liabilities of the Canadian U.S. Oil Corporation. The latter concern received share for share in the Lewis Oil Company of Oklahoma. Subsequently, the Canadian U.S. Oil Corporation was liquidated, and the assets of the company were turned over to the Lewis Oil Company of Oklahoma. The latter company is now in possession of the assets of the Canadian U.S. Oil Corporation, and is now a well established industrial concern, which with proper management and a little more capital ought to be in the immediate future become a factor in the oil producing and refining world.

"In spite of group government, we have had from the Mackenzie King government a splendid mass of beneficial legislation," Mrs. Smith went on.

"She told of being in the Kootenay last week where the wife of the Conservative candidate had been to Spokane and bought an expensive new outfit. The customs officer at the boundary held her up and made her pay duty on this when the result was that she had not spoken to the customs man since.

On the tariff, Mrs. Smith declared that the Tory high tariff policy had brought up as a cure for every ill in the country, but it had to be remembered that the tariff was a tax on the masses, not on the classes.

"Who is forcing this high tariff wall?" she went on. "It is not the masses but the classes. I never knew a country that imposed such a tax as they urge that didn't make the rich richer and the poor poorer, personally I am against any more taxation."

"I ask, whether the Robb budget is not the best budget that has been brought down in the history of Canada. The motor car has been to stay and it should be as much the luxury of the poor as of the rich."

"Did the manufacturers close the factories when the automobile tariff cut went into effect? They did for a couple of days. But they were like the man in the scriptures who pulled down his barns to build greater ones. They added \$500,000 more machinery, added 1,000 men to the number of their employees and are now producing cars at the rate of thirty per cent more than they were before."

As a result of the Australian Treaty, \$2,500,000 more of paper has been ordered for Australia from Powell River alone.

"Is that a bad thing for Canada?" she asked.

**AUSTRALIAN TREATY**  
She also explained that in return for fish and soft wood lumber going to Australia, Canada is taking Australian raisins. As for butter, she said that she did not remember a single winter in twenty-four years since she has been here that Australian butter was not brought into Canada.

## SAANICH TIGHTENS PLAYGROUND CONTROL

Trustees Find Children Need Supervision in Playtime

School teachers in Saanich must exercise more definite supervision of play in school hours on school playgrounds. The Saanich School Board last night ordered a general circular letter be sent to all school principals, pointing out that the requirements of the Provincial Department of Education have not been satisfactorily maintained. Criticism of rough action by children was aired, and use of coarse language by many children was believed to have grown beyond bounds because of lack of adequate playground supervision in a majority of the Saanich schools.

Trustees also considered that much minor damage to buildings could be prevented by closer control of play, and will insist on immediate tightening up of supervision.

**NEW FLAGPOLES**  
Lofty cedar flagpoles will be erected on the playgrounds of the schools at Gordon Head, Totmie Primary and Strawberry Vale, replacing the stub poles at present in use.

### LIBERAL POLICIES

"Policies which the Liberal party have to offer at this time, as contrasted with those of the Conservative Party, ought to appeal to every portion of this riding and every part of this Province of B.C.," Mr. Farris said.

Mr. Farris went into the customs inquiry, taking it up along the lines of his speech at the Chamber of Commerce the night before.

On the constitutional issue, Mr. Farris said the responsibility is on the Prime Minister, Arthur Meighen, because the theory is that the King and Governor-General can do no wrong and the responsibility for any action has to be borne by the cabinet advisers, that is, the premier and his ministers.

"If the old age pensions bill as introduced in the House was no good, as Mr. Laidner says, why did not Mr. Dickie and Dr. Toole offer amendments to it to make it good?" Mr. Farris went on.

"There was not a single Tory in the whole House that offered a single amendment to it. The explanation is that their heart was not in it and they knew that their friends in the Senate would kill it. Senator Ross, Mr. Meighen's co-leader in the Senate, was the leader of the attack on old age pensions in the Senate."

"Have you heard a single Conservative attack the Senate for killing the old age pensions bill?"

"If you send a Conservative government down to Ottawa, what will these old boys, these old pensioners in the Senate say? Why they will say, 'Our position in killing old age pensions has been vindicated and we will keep on killing that legislation just as long as their life is in our old crippled bodies.'"

"Mr. Dickie has got to do a lot of arguing to make the people of this constituency believe that the benefits of the Robb budget were a hoax and a sham as Mr. Meighen said."

"These Tories who come to you at election time and trot out the British flag are inconsistent in their attacks on the treaties which are aimed at stimulating trade within the Empire."

Mr. Farris recalled the British preference introduced by the Liberals and continually raised by the Liberals until the British manufacturer now has a preference of 33 1-3 per cent over foreign manufacturers in the Canadian market. Against this Liberal attitude there was the stand of Mr. Meighen that the British preference was unsound in theory and also the statement of Mr. Stevens in the House last January that the Conservative party was against British preference unless Britain gave Canada a similar preference.

### MRS. M. E. SMITH

Mrs. Smith introduced as the person who has introduced most of the legislation for working people, women and children in the last ten years, recalled that her late husband formerly represented Esquimalt in the House of Commons. She declared that the Liberal policy appealed to the masses of the people, not the classes.

"In spite of group government, we have had from the Mackenzie King government a splendid mass of beneficial legislation," Mrs. Smith went on.

"She told of being in the Kootenay last week where the wife of the Conservative candidate had been to Spokane and bought an expensive new outfit. The customs officer at the boundary held her up and made her pay duty on this when the result was that she had not spoken to the customs man since."

On the tariff, Mrs. Smith declared that the Tory high tariff policy had brought up as a cure for every ill in the country, but it had to be remembered that the tariff was a tax on the masses, not on the classes.

"Who is forcing this high tariff wall?" she went on. "It is not the masses but the classes. I never knew a country that imposed such a tax as they urge that didn't make the rich richer and the poor poorer, personally I am against any more taxation."

"I ask, whether the Robb budget is not the best budget that has been brought down in the history of Canada. The motor car has been to stay and it should be as much the luxury of the poor as of the rich."

"Did the manufacturers close the factories when the automobile tariff cut went into effect? They did for a couple of days. But they were like the man in the scriptures who pulled down his barns to build greater ones. They added \$500,000 more machinery, added 1,000 men to the number of their employees and are now producing cars at the rate of thirty per cent more than they were before."

As a result of the Australian Treaty, \$2,500,000 more of paper has been ordered for Australia from Powell River alone.

"Is that a bad thing for Canada?" she asked.

**AUSTRALIAN TREATY**  
She also explained that in return for fish and soft wood lumber going to Australia, Canada is taking Australian raisins. As for butter, she said that she did not remember a single winter in twenty-four years since she has been here that Australian butter was not brought into Canada.

Under the West Indies Treaty a

similar beneficial exchange of products was made between these two countries, she continued.

"I protest most heartily against a higher tariff than we have now," she went on. "The people of this country are taxed heavily enough now."

Mrs. Smith asked what was Canada going to do with the surplus of her half billion wheat crops every year if exchange of this surplus with other countries was not encouraged.

"When the old age pension bill came up in the Senate every Conservative Senator voted against the bill."

"And they forgot that they were in an old man's home themselves getting \$4,000 a year and not enough to keep them warm," she added.

Reduction of income tax has been an immense boon to the people of the country, along with the restoration of penny postage and the abolition of the receipt tax.

"It has taken the Liberal party to restore the penny postage again as it was the Liberal party that brought it in," she went on.

As for employment conditions in Canada, B.C.'s quota this year for wheat harvesting was 10,000 men, but all that could be mustered was 5,000 men, while four or five years ago there were unemployed in this province by the thousands, Mrs. Smith said.

### FORTIETH MEETING

Mr. O'Halloran, emphasizing the extent of the Nanaimo riding, which runs from Esquimalt to three miles north of Nanaimo, said this was his fortieth meeting so far in this campaign. He referred to Mrs. Smith and the work she has done in British Columbia for bettering social conditions was greeted with applause.

Mr. O'Halloran urged state health insurance. He gave Vancouver Board of Trade figures to the effect that in British Columbia there were 17,000 workers with annual average incomes of \$1,000 a year, that only a few of these men are secured against accident or sickness, and that the average worker on his death leaves his family only one week's salary.

"I am not urging state health insurance as a political expediency, but because I believe in it and have always believed in it," Mr. O'Halloran said. "The operation of the Act does not mean that there would be one cent addition to the taxation of the Dominion or Province. Since the War nearly every public and semi-public body in this Province has considered this measure. The time has arrived when the people of Canada consider this of prime importance."

**LIBERALS HELPED VETERANS**  
Dealing with returned soldiers' problems, Mr. O'Halloran said:

"The Liberal Party was the first party in Canada to bring a sympathetic viewpoint to the problem of the returned soldier."

He urged an improvement in the method of dealing with pension cases to make appeal to a local judge possible, instead of it being necessary to go to Ottawa in the form of a mere cold, typewritten statement.

Regarding pay of married men in the army, he said he favored change in the regulations so that all married men, not excluded from married pay because of technicalities, should get full married pay.

"Whether elected or not elected I shall continue to press for a fair deal to those men who lost their tools on government work here some time ago so that they may be reimbursed."

Mr. O'Halloran went on.

He came out strongly in favor of a Canadian navy, which would be a factor in building up Esquimalt.

"With a renewal of navy activity at Esquimalt under the building up in Canada of a Canadian navy, there would be a degree of prosperity in Esquimalt such as has not been known since the palm days when the Imperial navy was here," Mr. O'Halloran went on.

**THE TARIFF**  
On the tariff, Mr. O'Halloran recalled that in 1878 Sir John A. Macdonald brought in his national policy of high protective tariff.

"It was operated for thirteen years under his eye before he died," Mr. O'Halloran went on. "But in 1891 every province except Ontario was on the verge of bankruptcy, the people of Canada had been leaving Canada in hundreds of thousands for United States."

"Mr. Dickie himself was one of those who were forced to leave Canada under Sir John A. Macdonald's high protective policy, and he was one of that land army of Canadians who returned to their native land with renewed hope under the moderate tariff of Sir Wilfrid Laurier."

"If a high tariff policy is again adopted in Canada we will again

Weeping Eczema Relieved by "FRUIT-A-TIVES"

MRS. JOS. P. MARRINIER

"For three years I suffered with weeping Eczema on the back of my hands. I tried many treatments and salves, but they gave me no permanent relief. When baby came, I was afraid that he too would be affected. I had practically considered my case hopeless when I started to use 'Fruit-a-tives' and 'Sootha-Salva.' In a short time the eczema completely disappeared, baby has always been wonderfully well, and I have not had a trace of it for four years."—Mrs. Jos. P. Marrinier, 452 Arlington Ave., Ottawa, Ont.

This marvelous fruit medicine helps the bowels and kidneys to rid the system of waste, and cleanses the blood stream so that the pure, rich blood soon heals the itching, inflamed skin. "Fruit-a-tives" are obtainable in all drug stores, at 25c and 50c a box. If "Sootha-Salva" (50c a box) is not obtainable at your dealer's, order it direct from Fruit-a-tives Limited, Ottawa. (Advt.)

face the hard times we did under two Conservative regimes. We know that the most prosperous time Canada has had was under Liberal fiscal policy. The Liberal Party, if returned, will again build up truly Canadian industries, in such a way that the consumer will get the benefit."  
A. T. White, president of the Esquimalt Liberal Association, chairman, pointed out that Mr. O'Halloran served overseas as a private, was in the front line trenches for a year, and has been active since the war in returned soldiers' activities.  
J. Torrance sang during the evening, with Miss King at the piano.

## OLD AGE PENSIONS AID FOR WORKERS

Bill Drafted by Federal Liberals Offered Benefits, Says D. Donaghy

Vancouver, Sept. 9.—Denouncing Conservative candidates and speakers for deliberate misrepresentation of the text of the old age pensions bill, Donald Donaghy, Federal Liberal candidate in Vancouver Centre, addressed a campaign meeting here last night.

The bill expressly provided that it could become law in any one province should the provincial government decide to accept it and in British Columbia the Liberal government of Mr. Oliver had already announced its acceptance of the act, he said.

There were no jokers in the bill, he said, and although it might not be perfect—few acts were perfect until they had been amended from time to time in the light of experience—he pointed out it was peculiarly a measure favored by organized labor and the Labor members of Parliament had fought for it.

He charged the Conservatives with insincerity in their present attitude of supporting old age pensions after the Conservative Senators had voted the bill down.

## CANADIAN CLUBS TO HAVE SPEAKERS' FUND

Country-wide Association Continues Investigation of History in Schools

Ottawa, Sept. 9.—The convention of the Association of Canadian Clubs last night decided that a speaker's fund should be established to provide for sending speakers from one part of the country to another. Mrs. Nash believed such an exchange of speakers would counteract a tendency to sectionalism in Canada. Last year \$1,600 had been spent on this work.

The convention decided to continue its investigation of the teaching of Canadian history in schools. It was also decided to secure space in the magazine Forest and Outdoors, the official magazine of the Canadian Forestry Association. A certain number of pages will be at the disposal of the Canadian Clubs and will be edited under the supervision of the club's executive.

## CONVICT PUT END TO HIS LIFE

Prince Albert, Sept. 9.—James A. Murray of Edmonton, serving a two-year sentence in the penitentiary here for burglary, committed suicide yesterday. While being shaved by another prisoner, he seized the barber's hand and drew the razor across his own throat. Before he expired he absolved the barber prisoner from any blame.

## BISHOP SEES CATHEDRAL AS OUTPOST

(Continued from page 1)

to be as rich as the United States," he said.

He explained that one of his objects in making the present trip around the world is to stimulate the population of the distant parts of the Empire with people from the Old Country.

His Lordship left London on May 7. He will be in Victoria until next Monday, when he will go up the Island with Bishop Schofield to visit the parishes there.

"I am anxious to do all I can to help Bishop Schofield in this work of building this new cathedral," he went on. "It is a great undertaking."

The Bishop will cross to Vancouver from Nanaimo, and after a tour through the Cariboo and other parts of the interior, he will return to Winnipeg to attend a meeting there of all the bishops of Canada on September 29. The Winnipeg meeting and his address to the Canadian Club there will conclude his Canadian visit.

He will then start on his United States tour, which will extend over six weeks, and during which he will speak at the chief American universities. On November 12 he will sail from San Francisco for Japan, Korea and China to visit Oriental missions. Later he will go south through Singapore to Australia and New Zealand. He will return to London on May 7, 1927.

## SYSTEM OF RULES

The Bishop has a system of rules which he says he owes to Bishop Macdonald, and these he gives as follows:

1. To devote a fixed time daily to private devotion, including prayer, intercession and meditation.
2. To give an hour, at least, in every day, or six hours in each week, to definite theological study.
3. To be specially faithful in visiting both the sick and the whole.
4. To be methodical, punctual and thorough in all things, rising early and at fixed hours, having as far as possible definite times for different duties, and keeping a daily record of the work done for the Master.
5. To devote a fixed portion of his

come to the service of God and the relief of the poor.

6. To observe in a loyal spirit as God may guide us, the rules and directions of the church.

7. On one of the days of each Ember season to read over on our knees the vows and exhortations of the Ordinal, and to make the day as far as possible a day of retirement for self-examination and prayer.

8. Once in each year to seek for one or more days seclusion from the world at some retreat or spiritual conference for the reviving of our spiritual life, and for higher instruction in the ways of God and in the work of our calling.

9. To daily endeavor ourselves to following the blessed steps of His most holy life, Whose we are and Whom we serve, and to adorn the doctrine of God our Saviour in all things.

"STIRRING MEN UP"  
The Bishop is a great believer in speaking to his audiences without the restrictive fetter of notes. "Stirring men up," as he puts it, is the mission that the Bishop appears to regard peculiarly as his own. He declared that the one thing evil wants is "to be let alone."

It was not quite naturally that the Bishop came to take Holy Orders. In his Oxford days he said all manner of doubts would appeal to any thoughtful young man before he decided on seeking ordination in the Church of his fathers. Referring to a history of the Church of England as the last hundred years, he said:

"There were 800 pages, about 400 devoted to the ritual question, the struggles as to the real meaning of the sacraments. Rubric: Are vestments to be worn or not? Is incense to be burned or not? Is a stole legal? What is the real worth of a Privy Council judgment? There had been the Colenso controversy, and then the controversy about Lux Mundi."

"Now I should be the last to deny the importance of some of these controversies, but it is hard to realize how trivial, how petty, many of them must have seemed to the tolling millions of our fellow-countrymen, or how, at any rate, far above their heads the whole hurly-burly sounded."

## RIVAL CAMPS

There they were fighting and struggling for daily bread, here we were convulsed with a question of whether a stole was legal. There they were working out their own salvation as best they might; here we were ranged into two rival camps of High Church and Low Church, and too intent upon defeating one another to have time to attend to their growing hungers for a life which could be in any sense called real life, and a

**From Our Paris Letter**

Fashions as Shown by  
Different Couturiers

With the demand for Fall and Winter Fashions, Paris couturiers are showing many new styles and effects.

Agnes showed a number of black dresses over flesh, and where the dress has large revers it was buttoned up softly at the neck to make a jabot and when opened effected a more tailored line.

Agnes continues to show a number of ensembles, either in fancy wool materials or in velvet with fur cuffs and collars, and with a dress of either crepe de Chine or kaska; in the same shade or a lighter tint.

In her dresses more side pleats were shown than drapes, though there are many smart dresses shown with side and front drapes, and coat dresses which open in the front over contrasting color, are shown.

In her Evening Dresses, Agnes showed a great many laces and continues to show spangles.

Martial and Armand, known as the "Misses' House," showed some very smart dresses. Sport dresses, which consisted of models for skating, golfing and other outdoor amusements. Most had open kick pleats and fitted with knickers to match. They were in bordered kaskas, velvets, plaids and suedes.

"Krimmer" Fur as a trimming is shown on different materials. Martial and Armand continues to show Moires, principally in the high shades, combined with a contrasting color, where the skirt is of a rose moire. The waist is of a rose, flat crepe or the reverse. In her evening wraps she concentrates on a square of silver or gold cloth and fur held together at the bottom to make a wrap.

## VICTORIA SPEAKER TO ADDRESS BOARDS OF TRADE OF CANADA

Invitation to Victoria President of Chamber of Commerce is Tribute

C. P. W. Schwengers, president of the Victoria Chamber of Commerce, has received an invitation to attend and address the convention of the Board of Trade of Canada at St. John, New Brunswick, during the sessions which commence October 19 and end October 21. He has been asked to address the convention on the subject of "Foreign Trade."

It was in a letter received from James L. Regan, secretary of the convention, that the invitation to Mr. Schwengers came. It was pointed out that the request came as a result of a meeting of the executive of the associated Boards of Trade, a tribute to Victoria's Chamber of Commerce president.

"It is not the intention to have many speeches," the letter says, in part, "more attention being given to committee work and the study of national questions affecting our country at this time, our executive is most anxious to have you

present for the purpose of giving a talk on this very important matter."

When the Canadian Board was organized last year at the Winnipeg convention, it was not represented, and it is hoped that on this occasion the city may have delegates at St. John, members of the Chamber of Commerce have asserted.

Mr. and Mrs. Reid and family have returned to Victoria after a five weeks' vacation at Cedar Point.

## SIDNEY TRADE BOARD DEBATES GROSS TAX

Proposed New Method Will be Discussed Further

Sidney, Sept. 9.—The regular monthly meeting of the Sidney Board of Trade was held on Tuesday evening in Wesley Hall. The president, J. E. McNeil, was in the chair. There was a smaller attendance than usual owing to the holidays.

The swimming gala report was received and adopted, and the thanks of the board were extended to all who assisted in making the event so successful. To Harold Palmer, agent for the Puget Sound Navigation Company, to W. A. S. Thompson, and B. Blagoff for their able assistance in laying out the courses and other arrangements for the day.

The question of joining the Canadian Board of Trade was discussed and laid over until the next meeting. Communications were received from the Victoria Chamber of Commerce, also from the Department of Lands and the application for foreshore lease in Towson Bay. A communication was received from C. B. Peterson, assistant surveyor of taxes, enclosing a memorandum explaining the principle of the proposed tax on gross income. This was the occasion of considerable discussion, both for and against. On account of the importance of the proposed change it was decided to leave the question on the table until the next meeting. Copies of the directory of products manufactured by British Columbia industries, 1926 edition, have been received, and the information is available from the secretary.

**WOMEN'S GUILD**  
The Women's Guild of St. Andrew's held its regular monthly meeting Wednesday afternoon at the home of Mrs. J. J. White. There was a good attendance. The president, Mrs. White, was in the chair. The minutes and the financial report, which were adopted. A good deal of business in connection with the sale of the directory to be held in November was discussed. One new member, Mrs. J. Peck, was welcomed. Mrs. White served a delicious tea, assisted by Mrs. McNeil. A social hour was then enjoyed. The next meeting will be held at the home of Mrs. Roy Brethour.

**LADIES' AID**  
The regular monthly meeting of the Ladies' Aid of the United Church was held at the home of Mrs. Ellis of All Bay, on Wednesday afternoon. There was a very good attendance. The president, Mrs. Ellis, was in the chair. It was arranged to hold a picnic on Monday afternoon at Mr. Macdonald's beach at Seaview Bay. The committee for the picnic is Mrs. Ramsay, Mrs. Draper and Mrs. Wilkinson. A good deal of business was discussed. Mrs. Ellis served a nice tea and the meeting adjourned to meet next month at the home of Mrs. Homewood.

Miss Ethel Carter of Ladysmith, is staying with Mr. Watts of Queen's Avenue.

Mrs. James Mitchell of Vancouver is spending a month with her brother-in-law and sister, Mr. and Mrs. Alder of Deep Bay.

## Was In Agony With Blisters On Hands Cuticura Healed

"Eczema broke out in very small blisters on the backs of my fingers. After a few days the blisters would break and then dry up. It itched and burned terribly and scratching caused very red eruptions. I could not put my hands in water or do any work without wearing rubber gloves. I could not sleep nights on account of the irritation, and was in agony most of the time. The trouble lasted about a year.

"I read an advertisement for Cuticura Soap and Ointment so purchased some. After using them a short time I could see an improvement. I continued the treatment and now I am healed." (Signed) Miss Bernice Shannon, R. F. D. 2, Orleans, Vt., Sept. 15, 1925.

## OPERATION LEFT HER VERY WEAK

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario.—"After a severe operation and three weeks' stay in a hospital I returned home so weak that I was unable to move a chair. For four months I was almost frantic with pains and suffering until I thought sure there could not be any for me. I had very severe pains in my left side and suffered agony every month. One day when I was not able to get up my mother begged me to try your medicine. My husband got me a bottle of Vegetable Compound at once and I took it. I started a second bottle, and to my surprise and joy the pains in my side left me completely and I am able to do all my work without help. I am a farmer's wife, so you see I can't be idle long. In all, I have taken six bottles of Lydia E. Pinkham's Vegetable Compound, five boxes of the Compound Tablets, two bottles of Lydia E. Pinkham's Blood Medicine, and have also used the Sensitive Wash."—Mrs. L. LAJUNESS, Box 103, Coniston, Ontario.

DOLORES COSTELLO IS  
HER ALLURING SELF  
IN PLAYHOUSE FILM

Dolores Costello may try to look like a hard-boiled crook, let her cigarette drop from the corner of her mouth, and chew gum without making any attempt to keep it a secret, yet she remains an alluring and wistfully appealing slip of loveliness in spite of it, in "The Little Irish Girl," the Warner picture at the Playhouse Theatre.

Although she gives a finished performance in the stellar role of a girl who is the decoy for a band of swindlers, we were delighted when love came into her life and banished the cynical sneer which she wore as a mark of her trade. When she reforms and appears in a charming love scene with John Harron, the boy from the country who made her see the error of her ways, she is, as in "The Sea Beast" and "Bride of the Storm," one of the most beautiful actresses on the screen.

"The Little Irish Girl" is excellent entertainment, being a mystery crook comedy-drama, directed by Roy Del Ruth and enacted by a cast that boasts Matthew Betz, Lee Moran,

VIRILE STORY OF  
WEST FEATURES TOM  
MIX AT COLUMBIA

Crooks outwitted, hearts made glad, a great police department vindicated—this is the swift summary of "My Own Pal," Fox film version of Gerald Beaumont's thrilling story, "The Gallant Guardsman," starring Tom Mix at the Columbia Theatre.

Olive Borden, playing the feminine lead in this virile story of the West, has a rare opportunity to display her marked ability, while Tom Santschi, Jay Hunt, Virginia Marshall, Barclay and others acquit themselves creditably.

Humor and pathos are interspersed with dramatic sequences and Tony has ample opportunity to prove his super intelligence.

Jack Blystone directed the production from a scenario by Lillie Hayward.

There are mix thrills galore and the story moves swiftly to a stirring climax.

FAMOUS PRIZEFIGHTERS  
HAVE IMPORTANT PART IN  
"AMATEUR GENTLEMAN"

Three famous prize fighters played an important part in "The Amateur Gentleman," the inspiration picture, starring Richard Barthelmess, to be shown at the Capitol Theatre again to-day.

Gene Delmont donned the picturesque garb of the Regency period and grappled with Richard Barthelmess in the picture. Delmont was known as "Gentleman Gene" in the ring and was famed for his gentlemanly tactics.

Mickey McMin trained Barthelmess for the fight with John Barry who, in the story of Jeffery Farnol, was the former champion pugilist of England.

McMin was a contender for the lightweight championship for years and is credited with fighting Johnny Kilbane five times.

Director Sidney Olcott encountered serious difficulty in locating Harry Gilmore, ex-champion bare knist fighter of the world.

After considerable scouting, however, Olcott found Gilmore living a quiet, uneventful life in Los Angeles. He was engaged to train J. Edwards Davis, who portrays the role of John Barry.

EXTRA MAN BECAME  
FAMOUS BY PUNCHING  
VALENTINO'S FACE

Some are born great, some achieve greatness and some go into motion pictures.

The latest to reserve for himself a parlor, bedroom and bath in the hall of fame is Jerry Meigne, an extra man of the movies.

Jerry has the distinction of having hit Rudolph Valentino a resounding blow right on his handsome countenance. And, furthermore, he got paid for doing it. And, another further—Valentino did the paying.

It happened during the filming of a scene for "Cobra," the star's first independent Ritz production, now showing at the Dominion Theatre. The scenario required that Valentino and Meigne should have a fight in a

This threat was scoffed at by spokesmen for the Balaban and Katz Corporation, controlling half a dozen of Chicago's largest movie houses and a number throughout the Middle West.

"That's applesauce," said W. K. Hollander, advertising manager for Balaban and Katz. "This is a local strike. Gable was not sent here to make trouble. He came to make peace, and he has no reason to call out orchestras in other cities."

## LIBERALS FATHERS OF PROSPERITY IN CANADA OF TO-DAY

Carew Martin and Supporting Speakers Tell of Dominion's Progress

Declaring that the Liberal administration during the past five years had accomplished more for Canada than the citizens of the Dominion had ever believed possible, and showing that the same policies which had been adopted by the party would be retained, Carew Martin, Liberal candidate in the Victoria constituency, and supporting speakers last night spoke to an enthusiastic audience at the North Ward School auditorium.

The policies which had brought Canada to the fore as an exporting nation, which had diminished the country's taxes, slashed her debt, built up her industries, aided the returned soldiers within her borders, and given to the nation a railway which was now actually earning tens of millions of dollars annually, would be those of the Mackenzie King party for all time, declared Mr. Martin.

Excusing himself to his hearers and remarking that it was an embarrassing thing for him to do, Mr. Martin declared that as he had been criticized because of his comparative youth, he felt he should answer this criticism. When the call to the colors came in 1914 he had not deemed an excuse for not doing his utmost for his country and for the Empire. Neither did he deem age an excuse for remaining out of political affairs, he said. He was young, he admitted, but he had the welfare of his country at heart and meant to do his share of work to build it up and make it great.

**WOULD PROTECT AGED.**

Mr. Martin sketched briefly the results of last year of the Liberal administration, dealing first with the Old Age Pension Bill. Conservatives had been extremely quiet when this bill had gone to the Senate, where a Conservative majority killed it. If Mr. Martin asked, the Conservatives had agreed with the principle of Old Age Pensions; why had they not suggested something to make it workable and agreeable? Contrary to what Conservatives would lead people to believe, said Mr. Martin, the party was absolutely opposed to legislation which meant assistance for the masses and the possibility of additional cost of administration to the Government.

**MARTIN'S PROMISE**

Liberals were strongly in favor of this Old Age Pension system, which would ultimately be a law, and which had already been accepted by progressive and democratic countries of Europe and parts of the British Empire. Australia had such a bill, where people were judged on their merits and rewarded accordingly. Great Britain had such a scheme. So had France and many other nations and Canada's turn would come as soon as the Liberal Party took power, the speaker promised.

Speaking of the Customs Scandal, Mr. Martin asserted that Tory place-men, who were charged offenders, were the most implicated in the affair. No doubt there had been maladministration of some sort, said Mr. Martin. There were men in the Customs Department who were not honest and they were guilty of taking bribes. They said the speaker, were guilty. But the Liberal Party was not. The Royal Commission investigating the whole customs affair would settle the matter in its report, said Mr. Martin, and until that report was made public it was unfair to condemn a single soul.

All the Liberals' attempts to save for the people of Canada money in taxes and expenses, had been branded as "nonsense" by Mr. Meighen. But it was by small economies, and big ones too, which had made Canada prosper under the Liberal regime, whereas it was Mr. Meighen's party which had wrecked Canadian trade; kept it down so that the trade balance was heavily against the Dominion. Now the conditions were far different, said Mr. Martin, and the immense favorable trade balance in Canada showed the value of the policies of the Liberal Party.

The operating profits of the Canadian National Railways were steadily growing, and this year would reach \$50,000,000, it was anticipated. This too, was an accomplishment of Mr. Mackenzie King, whose government found and employed Sir Henry Thornton.

There was not a question of a doubt but that Mr. Robb's budget would be a great thing for Canada. Mr. Martin urged that the people realize the necessity of putting back into office a government which would do for Canada all in its power to lead the country into prosperity. It was this party's pledge, he said, and, as a man of honor, he would see it carried out to the best of his ability.

**ALDERMAN MARCHANT**

Alderman William Marchant, supporting Mr. Martin on the platform, sharply criticized what he termed a "partisan Senate." It was shame that they had "kicked out" the Old Age Pensions Bill. It was strange that something which Conservatives claimed to support in principle should be utterly smothered out by that party's majority in the Senate. The indigent sick cost the city of Victoria nearly \$30,000 a year; the Old Men's and Old Women's Homes cost nearly \$20,000 and the Friendly Help, Rest Homes and the like, cost thousands, so that Canadian taxpayers were directly interested in the Old Age Pension Bill, said this speaker. It would mean a considerable saving to municipal funds. Alderman Marchant said that aged men and women deserved some such remuneration after a life-time of toil. It was a humane act, this thing which Liberals had attempted, but which Conservatives had destroyed and made impossible.

Mr. Marchant said that taxation invariably fell more heavily upon the shoulders of labor than on capital, especially when Conservatives made the laws. For this reason, too, he said, the country needed old age pensions.

Concluding, Mr. Marchant urged the voters' support of Mr. Martin. Age meant nothing, and it was not a crime, for William Pitt literally ruled the British Empire before he was as old as Carew Martin.

Alderman J. B. Clearhue dealt at some length with the tariff question. The Liberal method of developing Canada was to give a tariff rate which would protect infant industry, but not hurt anyone. The Conservatives' tariff system was one of high protection. "If we cannot import goods, we cannot export," said Mr. Clearhue.

Canada in a year exported \$1,328,000,000 worth of goods and this amount was naturally not paid for in gold but in trade. If the imports were killed, the exports would die, said Mr. Clearhue. This was economics, he said.

**TRADE'S NECESSITY**

"Our very existence depends upon our foreign trade," the speaker asserted.

The Liberal policy was not one of free trade, but of low protective tariff. Canada's people differed in their demands, one part desiring high tariff, the other free trade. The Liberal policy was, therefore, a half-way policy, best suited in a Dominion where the people could not agree on one course, said Mr. Clearhue.

Prices, said Mr. Clearhue, had gone down in Canada, according to a composite budget deduction, while in the United States they had increased. Mr. Clearhue quoted from official United States figures to prove his point, and showed how small, in comparison with that of Canada, was the American foreign trade.

Conservatives, said Mr. Clearhue, had said that the Liberal tariff policy would ruin Canadian foreign trade.

"Oh," said Mr. Clearhue, "I don't think so. For the year ending July 31, 1925, Canada's foreign trade amounted to \$1,923,448,764, while for the corresponding period in 1924 the foreign trade was \$2,327,193,145. That meant an increase in one year of \$403,744,381."

These figures drew a round of applause.

The Mackenzie King Government had consistently fought the grip which capitalists had in Canada. The Meighen party had not struggled to keep tariffs high and protect the capitalist, but had formed "a millionaire" cabinet.

"If you vote for the Conservative Party on election day you are voting for capitalists, but if you mark your ballot Liberal you are helping to prevent the exploitation of the people by the money interests in this Dominion," said Mr. Clearhue.

By lowering the tariff on farming implements, and by generally cutting the rate of customs duty, the Liberal Party had bolstered industry and production.

The speaker emphasized the necessity of building up preferential trade within the Empire. This, he said, was one way in which to bind the Dominions closer to the Mother Land. This, to the speaker's mind, was true loyalty on the part of Liberals. But this had been opposed by Mr. Meighen.

**MEIGHEN'S DECEPTION**

On the Conservative platform in Victoria West a Conservative speaker had spoken of Mr. Meighen's war policy. This speaker implied that Mr. Meighen's statements were made to deceive the electors of Quebec, simply in order to catch their votes, Mr. Clearhue declared.

"I wonder how many other statements he has made to deceive the people of Canada," Mr. Clearhue concluded.

## FIRE PREVENTION AS SCHOOL LESSON

Safety First in Forests and Traffic Suggested For Curricula

Free Text Books Only For Those Whose Necessity is Established

Of considerable interest in communications received by the City School Board in session last night was a suggestion from the B.C. Parent-Teachers' Federation that fire prevention and safety traffic rules be taught as part of the curricula in public schools.

The proposal is to be advanced officially before the B.C. Convention of School Trustees, to take place at Vernon on October 12. Delegates from the Victoria trustees will attend.

A draft of the proposals to be advanced at the board for perusal. These will be placed at the disposal of the trustees within the next few days. The board authorized the payment of the fees due the B.C. trustee body in the sum of \$50.

**ESPERANTO ALSO?**

A proposal that Esperanto be taught in city night schools was tabled without discussion.

In the report of the finance committee expenditures to date of \$299,587 were shown, with teachers' salaries the largest single item, at \$217,819.

In the report of the building and grounds committee all city school premises were declared to be in servicable order for the new term. The High School cafeteria plan is now in operation, and will prove a great success, it is anticipated.

Meeting the need of some provision for isolated cases where students wishing to attend High School cannot provide their own set of text books, the board expressed a willingness to see what could be done in this direction, after investigation had proved such wants necessitous.

## FLAW IN SAANICH HIGH SCHOOL PLAN

Victoria School Trustees Without Power to Bar Visiting Students

Committee of City Board to Meet Saanich Trustees Soon

A serious flaw in the proposal of the Saanich School Board that the Victoria educational authorities exclude such as Saanich High School students as do not pay in full their fees to Saanich, was uncovered at a meeting of the City School Board last night.

Saanich will be told that the City Board is willing to co-operate in any system that will ensure the fact that the City receives payment for every pupil attending from that district, but that the proposals as at present drafted are unworkable.

It was agreed by the trustees that a special committee should get in touch with the Saanich board with a view to reaching an immediate clarification of the situation. The City is willing to accept all Saanich pupils for whom the Saanich trustees accept liability, but cannot be faced with the prospect of any dispute as to who should pay and when. The process of collection of fees is a matter that Saanich itself must bring about, say city trustees.

The obstacle in the way of the proposals advanced by Saanich lies in the fact that the school authorities cannot exclude any student for the non-payment of fees, if that is the sole ground and if the student is otherwise qualified. On the other hand the City does not need to accept as pupils those for whom Saanich will not assume liability by way of the payment of the full term fees.

It was decided after discussion by city trustees last night to make personal representations to Saanich along these lines. This will be done through the medium of a committee of three, comprising Chairman George Jay, and Trustees J. L. Beckwith and W. C. Moresby.

## ESQUIMALT HEARS TORY CANDIDATES

Tolmie, Dickie and Pooley Speak at Sailors' Club

"Intelligent tariff is what the Dominion of Canada needs at the present time, and that is what we will get if the Conservative party is elected to handle the reins of the Federal Government," declared the Hon. Dr. S. F. Tolmie, Conservative candidate for Victoria riding at the big Conservative rally held last night in the Sailors' Club, Esquimalt. Dr. Tolmie, along with C. H. Dickie, Conservative candidate for the Nanaimo riding, and R. H. Pooley, Conservative leader in the Provincial House, were the speakers. T. Harry Slater acted as chairman.

**QUOTES UNITED STATES**

The United States had adopted a high tariff in order to protect themselves and why should Canada not do the same thing, Dr. Tolmie asked. "The Mackenzie King Government had catered to the whims of a small group in the House of Commons regardless of the effect on the country as a whole," Dr. Tolmie declared. The Conservative policy called for a tariff to protect the manufacturers and farmers, the Conservative candidate stated, and this tariff would be elevated or lowered to suit the conditions existing in the country. Canada wanted a clean and honest Government, the speaker said in dealing with the customs inquiry. The revelations of the Stevens inquiry, he said, were enough to prove that the King Government was not honest in their dealings.

Rumors that the Hon. Arthur Meighen favored the amalgamation of the Canadian National and Canadian Pacific Railways were absolutely false, Dr. Tolmie concluded.

C. H. Dickie, Nanaimo candidate, spent a good portion of his time defending the Conservative stand on the Old Age Pension Bill. This he stated was a bill to divide the old people of the country. The proposition made by the King Government setting aside the sum of \$10 and the province to set aside another \$10 was absolutely unworkable, he claimed. Twenty-five Liberal Senators voted for the bill but not one of them favored it, the speaker declared. Because the Conservatives killed the bill all the blame was laid onto them.

In speaking of tariff Mr. Dickie said if Canadians keep their money in their own country then Canada will succeed beyond the expectations of everybody.

**LIKES AUSTRALIAN TREATY**

Touching on the Australian treaty, Mr. Dickie said Canada benefited greatly by this pact. "However, I myself am of the opinion that certain improvements could be made that would help Canada in more ways than one," he added.

In concluding Mr. Dickie appealed to the audience, asking them if they were to continue sending their sons and daughters, the very essence of Canada's future prosperity, to the United States, and use foreign goods that they might be home producing.

R. H. Pooley touched on the customs inquiry, concluding his address by making motion that a vote of thanks be extended to Dr. Tolmie for his splendid speech, which was seconded by Capt. R. P. Matheson, Reeve of Esquimalt. During the evening a pleasant musical programme was rendered, the following artists taking part: Miss Velma Jackson, Mrs. Wright and Mrs. Bowden.

## Saanich Insists on Fees From Older High School Pupils

Three protests against payment of fees for High School tuition were last night received by the Saanich School Board, the complainants asking special concessions for pupils above seventeen years of age. Backwardness in scholarship was alleged to have been caused by ill-health and consequent absence for prolonged periods. The board refused to modify the new requirement of a fee of \$30 for pupils above seventeen years of age.

Provincial Superintendent of Education S. J. Willis wrote the board that the 1926 entrance examinations were no more onerous than in previous years. He considered the lower percentage of pupils passing to be equal to the records of the previous two years, taking into consideration the large number of unrecommended pupils who took the examinations.

**AUSTRALIAN VOTE**

Melbourne, Sept. 9. (Canadian Press Cable via Reuters).—Latest figures available show New South Wales and Queensland gave majorities in favor of both the referendum questions, which were defeated by large majorities in the other states. Although this will not effect the result of the poll, it indicates a reversal of feeling which political observers say may jeopardize Labor's chance of regaining power in the next elections in those states.

**TRAIN KILLED CHILD**

Armstrong, Sept. 9.—Falling asleep on the Canadian National Railway line after she had wandered away from home, the three-year-old daughter of Fred Laduc was instantly killed about five miles north of here yesterday when run over by a southbound passenger train. A private car carrying officials of the railway was attached to the train.

## Keep Smiling for Him

There is absolutely no need for you to wear out your nerves and knuckles over a washboard. Change the hard work of washing to just rinsing.

Rinso, the marvelous time and labour saver made by the makers of Lux, takes all the hard work out of wash-day.

Rinso is already granulated and therefore dissolves instantly in hot water.

Clothes soaked for a couple of hours—overnight if you wish—in Rinso suds need no rubbing. Think of it! You just *rinse* the dirt out.

Don't do another washing without Rinso. Keep smiling for him.

Made by the makers of Lux.

**Rinso**

DIRECTIONS

Put some Rinso in a saucepan. Pour boiling water over it to set all its good, cleansing power free. Pour this into the wash-water. Quickly, completely, the tiny granules dissolve into a clean solution.

Use enough to get creamy, lasting suds. Then drop in the clothes. Soak—boil—or use a washing machine as you prefer. Rinso works perfectly any way you like best to wash.
